

Stirling Homes Queensland THE INDIANA

The Indiana is a fantastic design inside and out. From first look your eyes are immediately drawn to the interesting front façade with the sloping skillion to one side and timber gables highlighting this feature. Upon entry to this house, you get the feel of an open plan home, but with the seclusion of a separate lounge or media area. This is a very marketable feature and a great idea for when the kids have friends over. The dining room flows out onto the alfresco area, perfection when entertaining friends. With the house being built ready to move into, the only decision you need to make is where to build your new home.
