

Stirling Homes Queensland THE MISSOURI

This home suits the Queensland lifestyle perfectly, with a front verandah to enjoy the views and an alfresco area to dine out on those beautiful summer nights. And the inside is just as good as outside. The Missouri boasts the open plan living of the modern home, while still keeping the traditional formal lounge incorporated as well. This great feature can also be turned into a media room for the kids. The laundry in this home is something to make Mums smile. The laundry has its own folding bench, making doing the laundry a more enjoyable experience. And no more clothes strewn about the house. This four bedroom home is a lovely design for today's family and can suit city or rural living.
