The Illinois is the perfect 4 bedroom design for a growing family. The Master bedroom remains secluded to the back of the house, giving a perfect parents retreat. The other 3 bedrooms are situated toward the front of the home creating personal space for everyone. This design features a clever study nook, which is also a great way of keeping your bathroom and toilet areas hidden from view. With ample storage space, large kitchen, open plan living and dining and spacious alfresco, the Illinois is the perfect design to call home.
